and Computer Application**

Research Publication Centre

Research Publication Centre is established in Technocrats Group to promote the research environment. The aim of the Research Publication Centre is to provide the global platform to publish and share the innovative research ideas, review papers, original research articles, and scientific comments in all areas of Engineering, Basic Science, Pharmacy and Management.

Function of the Cell

- To develop and maintain the online journals in different disciplines of Science, Engineering, Management and Pharmacy.
- To maintain the quality of the publication, the manuscript is screened for plagiarism before peer review process and possible publications.
- The cell conducts several programmes to motivate the students to write and publish the research findings of projects and novel ideas.

Uniqueness

- Technocrats Group is the only group in MP who have 8 official Scientific Journals for different discipline of Engineering, Pharmacy and Management.
- Research Publication Centre is conducting various training activities to improve the research writing skill of the students.
- Students of final year can publish their project work in the form of research paper in theses online journals.
- More than 50 International Experts/Scientists from USA, Australia, Canada, Germany, UK, Europe, China and Malaysia are associated with journals as Editorial/Advisory members.

About Us

International Journal of Innovative Research in Computer Science, Engineering and Information Technology (IJIRCSEIT) is an international, peer reviewed, open access journal, aims to provide an international forum for sharing knowledge and results in theory, methodology and applications of computer science, engineering and information technology. Papers for publication in the journal are selected through rigorous peer review, to ensure relevance, originality, timeliness and readability.

International Journal of Innovative Research in Computer Science, Engineering and Information Technology is a peer reviewed international journal that published twice in a year in the months of June and December, on the articles concerning technological advancements in all areas of Computer Science, Engineering and Information Technology.

Aim

International Journal of Innovative Research in Computer Science, Engineering and Information Technology (IJIRCSEIT) is a peer reviewed open access journal that provides the global platform to publish and share the innovative research ideas, review papers, original research articles, and scientific comments in all areas of Computer Science, Engineering and Information Technology. The aim of this journal is to encourage the Academicians, Researchers, Research scholars, Students and Industrialists all over the world to deliberate upon recent trends and technology in the field of Computer Science, Engineering and Information Technology.

Scope

We accept the scientifically valid and technically sound manuscripts that are subject to a rigorous and blind peer-review process before the publication. By publishing with us, your research will get the global coverage and attention it deserves. The journal considers cutting-edge contributions across the breadth of different research areas in Computer Science, Engineering and Information Technology. Areas mainly includes but not limited to database, artificial intelligence, computational statistics, hardware systems, internet computing, operations research, scientific computing, data mining, imaging engineering, networking, bioinformatics, software engineering and its applications etc.

Editorial Board Members

Dr. Zhangissina Gulnur, Professor, Vice-Rector, Science Central-Asian University, Almaty, Kazakhstan.

Dr. Abdel-Badeeh M. Salem, Professor of Computer Science, Faculty of Computer and Information Sciences, Ain Shams University, Cairo, Head of Artificial Intelligence and Knowledge Engineering Research Labs, Egypt.

Dr. Bhupendra Verma, Professor, Department of Computer Science & Engineering, Technocrats TIT Group of Institutions, Bhopal, India.

Dr. Lițan Daniela-Elena (Ph.D., Post-Ph.D.), Oracle Developer - Deployment & Delivery (Oracle Technology Center), Bucharest, Romania.

Dr. Balsam A. Mustafa, Associate Professor, Faculty of Computer Systems & Software Engineering, University Malaysia Pahang (UMP), Malaysia.

Dr. Mohd. Nazri Ismail, Associate Professor, Department of System and Networking, University of Kuala (UniKL), Kuala Lumpur, Malaysia.

Dr. Archana Sharma, Associate Professor, Department of Electronics & Communication Engineering, Technocrats TIT Group of Institutions, Bhopal, India.

Dr. Yasir N. Khan, Assistant Professor, Department of Computer Science, University of Lahore, Lahore, Pakistan, Founder & Head of Research Group of Robotics and IoT.

Technical Paper Presentation

Importance and Role of “Technical Paper Presentation” in the students life

Now a days, paper presentation skills are very essentially required in the corporate world. The paper presentation topics are more valuable for the students to share their knowledge and improve their communication skills. These skills play a prominent role not only during their engineering course, but also after the completion of their course, especially during their job search and career advancement.

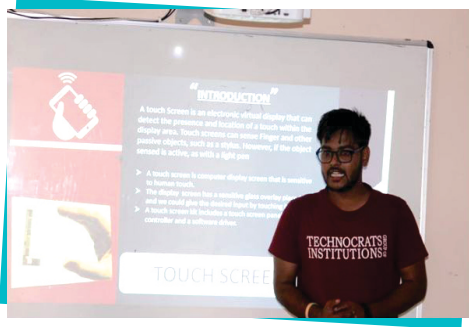

Topics Covered

- Compiler Design
- Software Engineering
- Networking and Communications
- Multimedia Systems and Services
- Database and Data Mining
- DSP/Image Processing/Pattern Recognition/Multimedia
- Embedded System and Software
- Web and Internet Computing
- Theoretical Computer Science
- Game and Software Engineering
- Computer Architecture and Real time Systems
- Modeling and Simulation
- Grid and Scalable Computing
- Programming Languages
- Soft Computing (AI, Neural Networks, Fuzzy Systems, etc.)
- Distributed and Parallel Systems & Algorithms
- Mobile and Ubiquitous Computing
- Intelligent Information & Database Systems

Paper Presentation Competition on “Recent Innovations and Trends in Computer Science Engineering, Information Technology & Application” was organised at Technocrats, T.I.T Group of Institutions, Bhopal on 10th April, 2019.

Special efforts have been taken by the Research Publication Centre to improve the presentation and writing skills of the students. The main advantage or motto of the presenting paper is to bring students out of stage fear and also improve their communication skills. It also provides you an opportunity to learn in detailed about a core subject which is a part of curriculum and develop effective presentation skills.

Glimpse of National Level Technical Paper Presentation Competition on “Recent Innovations and Trends in Computer Science Engineering, Information Technology & Application” organised at Technocrats, T.I.T Group of Institutions, Bhopal on 10th April, 2019

Participants and Winners of National Level Technical Paper Presentation Competition on “Recent Innovations and Trends in Computer Science Engineering, Information Technology & Application” organised at Technocrats, T.I.T Group of Institutions, Bhopal on 10th April, 2019
